

CONVENIENCE STORES

The Facilities Partner Behind High-Performing Convenience Stores

C-stores operate in a fast-paced, always-on environment where equipment reliability, store appearance, and operational uptime directly impact revenue and customer loyalty.

From refrigeration and HVAC systems to foodservice equipment and facility maintenance, every asset plays a critical role in keeping stores open, stocked, and ready to serve customers around the clock.

As convenience retailers expand foodservice offerings and modernize their operations, they need a facilities partner capable of supporting a complex network of locations with speed, consistency, and accountability.

INDUSTRY CHALLENGES

24/7 Operations Require Maximum Uptime

- Equipment failures can disrupt sales and customer experience at any hour.
- Unplanned downtime impacts both in-store purchases and foodservice revenue.

Protecting Temperature-Sensitive Inventory

- Refrigeration failures can lead to product loss, compliance concerns, and reduced profitability.

Growing Foodservice Operations

- Many convenience retailers now rely heavily on prepared food and beverage sales.
- Foodservice equipment performance is essential to revenue growth.

Managing Large, Distributed Footprints

- Multi-location operators need consistent service execution across regions and markets.

Controlling Maintenance Costs

- Reactive repairs often increase costs and shorten asset life.

HOW NEXTECH HELPS

Comprehensive Facilities Management

HVAC, refrigeration, electrical, and general maintenance services through a single partner.

Refrigeration Expertise

Protect critical inventory and reduce risk through proactive maintenance and rapid response.

Foodservice Equipment Support

Keep kitchens, beverage systems, and food preparation equipment operating at peak performance.

Reduced Downtime

Nationwide service capabilities help resolve issues quickly and minimize business disruption.

Asset Performance Management

Extend equipment life and improve operational efficiency through planned maintenance programs.

HOW WE SUPPORT YOUR BUSINESS

2,000+

Nationwide W-2 Technicians
